

Duplex Cardstock for White Ink Printing

Our luxe 120lb duplex cardstock is custom made for each order!
This unique look combines 2 cardstocks into 1 for an amazing new twist on our popular Passport designs.

Side 1: A colored cover of your choice which provides a solid hued canvas of your choice to showcase our extraordinary white ink printing. (Check out the duplex colors on the next page, options for metallic and matte are available)

Side 2: Metallic Quartz which allows for our 4 color printing to keep with the traditional Passport look of your engagement photo and map on the inside!

We look forward to creating something amazing with this one-of-a-kind cardstock - we know you will love it!

Happy wedding planning,
The Gals at Serendipity
